20/1						

All vehicles were driven by soldiers with black-bordered red epsulets. Equipment loaded on trucks included: four heavy machine guns with shield on wheeled hount; and two canvas-covered artillery pieces which had about two-meter long barrels and pneumatic tires. Another canvas-covered weapon on a two-wheel carriage had an about one-meter long barrel and was hauled by a truck.

On 30 March, motor vehicles and weapons observed on 29 March still were parked in the Auhof Kaserns area.

Comment. The information confirms the 287th Gds Mtz Rifle Regt statemed in Urfahr until late March 1954. It is rather definitely believed that all officers and EM, and weapons observed belonged to the above regiment. The column which departed toward Freistedt probably moved to the Doellersheim troop training grounds for fixing practice or held exercises. First of the vehicle numbers belonged to the 95th Gds Mtz Rifle Div.
